**CONGRATULATIONS ON YOUR NEW  
VIPP OPEN-AIR SOFA 3-SEATER**

*Whether we develop a bin, rethink  
the modular kitchen, or create a furniture  
line, we measure the quality of our products  
on their ability to stand the test of time.  
A recipe we have followed since 1939.*

**Open-Air Sofa 3-Seater**

## PRODUCT DESCRIPTION

The comfort of the living room is brought to the terrace with Vipp's outdoor sofa.

The 3-seater sofa is made with quick dry cushions and a specially curated outdoor fabric to ensure durability in all outdoor conditions. A specially designed system of straps is fitted under the seat cushions to enhance comfort. Straps are visible to echo the rhythmic pattern of the back and armrest. The backrest cushions and bolster pillow are made with a mix of fibre and foam with quick dry capabilities.

### Materials

Powder-coated aluminium with outdoor coating, plastic glider, outdoor fabric, outdoor foam with wadding and outdoor inner cover, washable synthetic belts, polyrattan.

1. Remove all protective plastic bags
2. Position all cushions in sofa frame.

## MAINTENANCE GUIDE

### Daily use

We recommend caring for the sofa to ensure its long-lasting appeal and appearance. Keep the fabric clean and let any rain drain off the chair before using the chair. The cushions cover can be removed and washed at 40 degrees in a washing machine. For the polyrattan use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent. Finish by wiping down the surface with a dry cloth.

### Protective cover

The protective cover is treated to resist water, oil, and dirt, functioning to protect the furniture. The cover is not recommended as a permanent cover for the sofa, as moisture may collect and lead to the formation of mold stains.

Cushions should be thoroughly dry before being covered for an extended period.

Please note that the cover is specially made for the sofa and therefore correct placement is needed. To increase the circulation of air and avoid the formation of condensation, the cover is not made to floor length.

Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place.

Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Rinse with clean water. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and discoloration.

## CARE INSTRUCTIONS

We recommend caring for the sofa to ensure its long-lasting appeal and appearance.

### Upholstery

Vacuum clean with low suction to preserve the fabric's colour and appearance.

Vacuum clean carefully and always brush in the direction of the pile and not against it.

Avoid using any type of hard floor brush when vacuuming.

Avoid exposing the upholstery to sharp objects.

Avoid pulling or cutting loose threads. Push them back into the fabric with a blunt object.

Use lukewarm water on a terry cloth, optionally with a mild neutral cleaning agent added.

Test on a less visible spot before applying a cleaning agent.

Use only small quantities of cleaning agent at a time and dry up with absorbent paper.

Avoid rubbing the fabric or the stain. Avoid using air fresheners, as this can cause a chemical reaction on the fabric.

### Polyrattan

Use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent. Finish by wiping down the surface with a dry cloth.

### Powder-coated surfaces

Keep powder-coated surfaces clean and dry. Use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent. Finish by wiping down the surface with a dry cloth.
